

1. Dumfries Infirmary maximum bed occupancy vs actual occupancy since 1st February 2020 (preferably with a graph showing occupancy over time and total amount of empty beds).
Please see below spreadsheet
2. Covid ward max occupancy vs actual occupancy since 1st February 2020 (preferably with a graph showing occupancy over time).
Please see below spreadsheet
3. How many people have died in Dumfries Infirmary due to Covid-19 alone? As in they were admitted to hospital because of Covid-19 and died only due to Covid-19, rather than dying of other causes and/or after testing positive in a PCR test.
For deaths registered up until the 17th January 2021
44 patients have died in Dumfries and Galloway Royal Infirmary with COVID 19 where it is recorded as the underlying cause of death
4 of those had COVID 19 recorded as the sole cause of death

DGRI Beds

Accessed: 11/02/2021

Criteria: Dumfries & Galloway Royal Infirmary only

Wards were only designated COVID specific from January 2021

Beds in Theatre, Day Surgery Unit, Ophthalmology Day Surgery and Discharge Lounge excluded as these would not be expected to normally contain overnight patients

NB: We cannot determine the reason for the beds being unavailable, ie, whether this was due to malfunction or for reasons due to COVID for instance
