

Ref:21-021	Received: 17 January 2021	Issued: 10 February 2021
------------	---------------------------	--------------------------

How many people have dies in your hospitals from Covid-19 alone? As in they died only form Covid-19. I can see the figures you publish online, but these are deaths within 28 days of a positive Covid test, so they could have died from other causes. I just want to know the exact figure from 1st February 2020 until the 16th January 2021 of people that have died due to Covid-19 and not anything else please.

From 1/2/20 to 16/1/21, for deaths in Dumfries and Galloway hospitals:

68 deaths were recorded where COVID 19 (confirmed or unconfirmed) was the underlying cause of death; Of those, 6 deaths were recorded where COVID 19 was the only recorded cause of death.
