

Please could you provide information on how many NHS staff at Dumfries and Galloway have been deployed as vaccinators since January 2020?

There were 37 members of NHS staff deployed as vaccinators since January 2020

I'd like information on the job role of each person and the date they were selected to be deployed as a vaccinator.

It is not possible to break this information down by this level as this could potentially identify individuals. I can confirm that the majority are Allied Health Professionals and less than five were specialty doctors/associate specialists. Identifiable information is exempt under section 38(1)(b) of FOISA.
