

Equality Impact Assessment Tool

This Tool has been developed to ensure that equalities, human rights, economic, social factors and the Armed Forces Covenant Duty are being considered ahead of the implementation of any new or revised policies, provisions, criteria, functions, practices and activities, including the delivery of services. Please note for the purpose of this document these will be grouped together and simply referred to as '**activity**'.

General Information			
Name of activity	Implementation of a new Residences Accommodation Policy and Standard Operating Procedure		
Lead person and job title	Ian Bryden, Head of Estates and Property		
Contact Information (<i>telephone and/or email</i>)	ian.bryden@nhs.scot T. 01387244372 M. 07739438410	Date of this assessment	11 th November 2025
Names and roles of those involved in the impact assessment process	• Emma McRobert, Project Manager • Ian Bryden, Head of Estates and Property • Laura Lennox, AHP Practice Education Lead • Janette Park, Estates Manager • Vicky Keir, Employee Director • Alice Walker, Medical Staffing Manager • Vicki Rice, Assistant Manager for Dental Services • Graham Walker, Residences Manager • Anne-Marie Coxon, Education Centre and Library Services Manager		
Describe the activity in no more than 200 words	• To introduce an Accommodation Policy and Standard Operating Procedures for NHS Dumfries and Galloway. • Introduction of a framework to better manage the residences process • To revise the accommodation allocation process, introduce a fair and transparent charging structure, and implement card payment options for NHS Dumfries and Galloway residences. This aims to: ○ Improve financial sustainability ○ Ensure equitable access to accommodation ○ Align with national standards and audit recommendations		
How will people be affected by this activity?	• Resident doctors (with and without training numbers) – in compulsory group and will be provided with accommodation if available • All Students with an SLA agreement - in compulsory group and will be provided with accommodation if available • All Students without an SLA agreement – not in in compulsory group and weighting matrix will be completed to establish priority and will be provided with accommodation if available • International Recruited staff - in compulsory group and will be provided with accommodation if available		

	• Locum and agency staff – not in compulsory group and weighting matrix will be completed to establish priority and will be provided with accommodation if available • NHS D&G staff requiring on-call accommodation – not in compulsory group and weighting matrix will be completed to establish priority and will be provided with accommodation if available • Recruitment teams – recruitment team will be issuing offer letters and information on accommodation. • Recruiting managers - will have to “approve” any requests made for accommodation • Relocation of Staff – not in compulsory group and weighting matrix will be completed to establish priority and will be provided with accommodation if available The introduction of the Residences Policy and Standard Operating Procedures (SOP) is designed to bring a more equitable and fair approach to allocation of rooms to staff groups. All rooms will attract a 100% market value, but in some cases, these will be subsidised. Representation from staff groups in developing the Policy and SOP has meant that the impact of these changes has been considered from different staff group perspectives. Robust and transparent guidelines will allow for fairer allocation and will allow for challenge, if required. This will result in better management of the residences.
Who has been involved in the development of this activity and in what capacity?	• Residences Accommodation Group that includes representation from Estates, Staff Side, Workforce Sustainability, Medical Education, Education Centre, Finance, Dental Services, General Practice, Clinical Educator rep for AHP and Scot Gem Lead. • There have also been several short life working groups looking at specific elements. • Financial Recovery Board have been presented with the charging structure • Engaged with Education Committee – representation from all Medical and Clinical Departments
Please include any evidence or relevant information that has influenced the overall decision being considered within this impact assessment	• Internal audit findings (April 2024) • Benchmarking data from other NHS Boards • Weighting Matrix for Accommodation Allocation • SBAR documents outlining charging and payment options • Service Level Agreements (SLAs) for student placements • British Medical Association (BMA) and Scottish Government guidance

Impact Assessment Questions

Please complete the table below and outline within the comments sections:

1. any evidence, relevant information or involvement that has influenced the decision on impact (this may also include demographic profiles, audits, research, health needs assessment, work based on national guidance, findings from engagement and consultation). Prompts are available on **page 6** to support discussion around potential impacts.
2. Mitigating measures that will be taken to ensure that no impact is negative

When assessing the impact on each protected characteristic, you should consider the following aims of the Public Sector Equality Duty:

- Does the proposed activity impact on the **elimination of discrimination**?
- Does the proposed activity contribute towards **advancing equality of opportunity** by removing or minimising disadvantages, meeting the needs of particular groups and encouraging participation in a particular activity?
- Does the proposed activity **foster good relations** between different groups?

Protected Characteristics/Impact Areas	Are there any positive impacts? Yes/No	Are there any negative impacts? Yes/No	Rationale for decision and further comments <i>Use prompts from page 6 onwards to expand on what the potential positive and negative impacts might be.</i> <i>Use space to include any specific evidence or data relating to the protected characteristic/ impact group that has been noted or gathered. You may find further information on the Equality and Diversity Folders on Beacon</i>	What measures will be put into place to mitigate any negative impacts? <i>Please note any measures that will be put in place to mitigate negative impacts</i>
Age Early years, children and young people, including care experienced young people	No	Yes	Accommodation is being provided for students, resident doctors, locums etc who would be over the age of 17 years. The rooms are single occupancy and would not suit family set up.	
Working aged people	Yes	Yes	Certain staff/students may be disproportionately affected by charges	- Weighting matrix prioritises students and trainees. - Medical students are not asked to pay themselves for accommodation whilst on placement at any peripheral Board, as they are expected to keep a home address close to their main place of study and are not expected to be charged again for accommodation. - ScotGem students come with their own accommodation funding
Older People	No	No	If older people are still working or have retired and returned to work, they would be eligible to apply for the residences as per policy and would be scored and prioritised accordingly.	
Disability (This includes physical disability, learning disability, sensory impairment, long term medical conditions and mental health conditions)	No	Yes	No direct impact identified, there is some limited accessible accommodation, however communal areas are not fully accessible in terms of adjustable height of kitchen worktops and wet rooms	Ensure accessible rooms are available and prioritised where possible. Weighting matrix has scoring for staff with a disability.

Protected Characteristics/Impact Areas	Are there any positive impacts? Yes/No	Are there any negative impacts? Yes/No	Rationale for decision and further comments <i>Use prompts from page 6 onwards to expand on what the potential positive and negative impacts might be.</i> <i>Use space to include any specific evidence or data relating to the protected characteristic/ impact group that has been noted or gathered. You may find further information on the Equality and Diversity Folders on Beacon</i>	What measures will be put into place to mitigate any negative impacts? <i>Please note any measures that will be put in place to mitigate negative impacts</i>
Sex/Gender	Yes	Yes	No direct impact identified	Rooms are allocated as required. Monitor allocation data for any gender disparities. All have individual rooms with a locked door and access to a bathroom with locked door. Rooms with an ensuite can be used for mixed accommodation where possible. Rooms with shared bathroom are single sex where possible.
Gender reassignment and Transgender	Yes	Yes	No direct impact identified	Rooms are allocated as required. All have individual rooms with a locked door and access to a bathroom with locked door. Rooms with an ensuite can be used gender reassignment and transgender where possible. Rooms with shared bathroom are single sex where possible.
Marriage and Civil Partnership	No	Yes	Provision of rooms are for single occupancy	Rooms are allocated as required. Consider flexibility in allocation
Pregnancy and Maternity	No	Yes	May require specific accommodation needs	Rooms are allocated as required. Consider flexibility in allocation
Race <i>(includes Gypsy/Travellers and those whose first language is not English)</i>	Yes	No		Weighting matrix gives priority to overseas recruits

Protected Characteristics/Impact Areas	Are there any positive impacts? Yes/No	Are there any negative impacts? Yes/No	Rationale for decision and further comments <i>Use prompts from page 6 onwards to expand on what the potential positive and negative impacts might be.</i> <i>Use space to include any specific evidence or data relating to the protected characteristic/ impact group that has been noted or gathered. You may find further information on the Equality and Diversity Folders on Beacon</i>	What measures will be put into place to mitigate any negative impacts? <i>Please note any measures that will be put in place to mitigate negative impacts</i>
Religion or belief	Yes	Yes	Cultural and Religious challenges means that in some cases individuals must have access to kitchen and catering facilities and therefore prioritised in residences.	Rooms are allocated as required. Consider flexibility in allocation if cultural or religious beliefs are raise on a case by case basis.
Sexual orientation	No	No	No direct impact identified	Maintain inclusive policies and training
Human Rights	Yes	No		• Right to adequate housing: Ensuring fair access and quality standards • Right to non-discrimination: Allocation and charging must be equitable • Right to privacy: Secure handling of payment and personal data
Carers	No	No	No direct impact identified	
Staff: • Full time • Part time • Shift workers • Staff with protected characteristics • Staff vulnerable to falling into poverty	No	Yes	Charging may disproportionately affect lower-income individuals	

Protected Characteristics/Impact Areas	Are there any positive impacts? <i>Yes/No</i>	Are there any negative impacts? <i>Yes/No</i>	Rationale for decision and further comments <i>Use prompts from page 6 onwards to expand on what the potential positive and negative impacts might be.</i> <i>Use space to include any specific evidence or data relating to the protected characteristic/ impact group that has been noted or gathered. You may find further information on the Equality and Diversity Folders on Beacon</i>	What measures will be put into place to mitigate any negative impacts? <i>Please note any measures that will be put in place to mitigate negative impacts</i>
Poverty ‘at risk’ groups • Unemployed people • People on benefits • Pensioners • Care Experienced people • Those living in the most deprived communities • Remote rurality	No	No	No direct impact identified	
People with low literacy/ numeracy, poorer skills and/or attainment	No	No	No direct impact identified	
Those involved in the criminal justice system and their families	No	No	No direct impact identified	
Homelessness	No	No	No direct impact identified	
People who are displaced incl. refugees & asylum seekers	No	No	No direct impact identified	
Economic & Social Sustainability	No	Yes	Charging may disproportionately affect lower-income individuals	
Environmental	No	No	No direct impact identified	
Armed Forces Personnel and Veterans	No	No	No direct impact identified	

Does this activity require consideration of the Fairer Scotland Duty ? If yes, please outline the steps taken to meet the needs of the duty.	No	
Please indicate how are you ensuring the information about the activity and around the proposed changes is accessible in terms of communication in the following formats, where relevant:	Easy Read	If people require any alternative formats these will be considered case by case
	British Sign Language	If people require any alternative formats these will be considered case by case
	Alternative Languages	If people require any alternative formats these will be considered case by case
	Large Print	If people require any alternative formats these will be considered case by case
	Other (please specify)	

Summary Sheet

Name of Activity	Residences Accommodation Policy
Date of Impact Assessment	11 th November 2025
Key Lead Contact	Ian Bryden

Please summarise any identified negative impacts and associated mitigations/actions:

Negative Impact	Mitigation/Action	Responsibility/ Timescale
Accommodation is being provided for students, resident doctors, locums etc who would be over the age of 17 years. The rooms are single occupancy and would not suit family set up.	• Use of the Weighting Matrix to ensure fair allocation • Clear communication and notice periods before implementing charges • Monitoring and review of impacts post-implementation • Engagement with affected groups and stakeholders	Ian Bryden Policy will be implemented by April 2026
Certain staff/students may be disproportionately affected by charges	• Use of the Weighting Matrix to ensure fair allocation • Clear communication and notice periods before implementing charges • Monitoring and review of impacts post-implementation • Engagement with affected groups and stakeholders	Ian Bryden Policy will be implemented by April 2026
If older people are still working or have retired and returned to work, they would be eligible to apply for the residences as per policy and would be scored and prioritised accordingly.	• Use of the Weighting Matrix to ensure fair allocation • Clear communication and notice periods before implementing charges • Monitoring and review of impacts post-implementation • Engagement with affected groups and stakeholders	Ian Bryden Policy will be implemented by April 2026
There is some limited accessible accommodation, however communal areas are not fully accessible in terms of adjustable height of kitchen worktops and wet rooms	Ensure accessible rooms are available and prioritised where possible. Weighting matrix has scoring for staff with a disability.	Ian Bryden Policy will be implemented by April 2026
Cultural and Religious challenges means that in some cases individuals must have access to kitchen and catering facilities.	Rooms in the residences are prioritised where possible.	Ian Bryden Policy will be implemented by April 2026
Ensuite/Shared bathrooms	Rooms are allocated as required. All have individual rooms with a locked door and access to a bathroom with locked door. Rooms with an ensuite can be used gender reassignment, transgender and mixed sex accommodation where possible.	Ian Bryden Policy will be implemented by April 2026
Provision of rooms are for single occupancy	Rooms are allocated as required. Consider flexibility in allocation	Ian Bryden Policy will be implemented by April 2026

Monitoring

How will you monitor the ongoing impact of the activity on all population groups?

Look at adding some questions to the Onboarding survey.
First review after 6 months and then move to annually.

Next Steps in the Impact Assessment Process

When complete, the lead person should send a copy of the full Impact Assessment Tool to the Equality and Diversity Lead by emailing it to dg.cbsteam@nhs.scot.

The impact assessment will then be published on the NHS Dumfries and Galloway public website at www.nhsdg.co.uk.

Please take 5 minutes to share your experience of completing this Impact Assessment by completing [this short survey](#)

Please note that this is a legal document stating that you have fully considered the impact on the protected characteristics and is open to scrutiny by service users/external partners/Equality and Human Rights Commission.

Prompts for Impact Assessment

This section is for reference only. It provides some prompts around what to consider when completing the Impact Assessment Tool. **This is not an exhaustive list, and is provided simply as initial pointers to stimulate thinking and discussion which should be noted within the template above.**

Equality Issues: All groups	Points to consider
- Consider the following equality impacts: <u>Access</u>: consider whether different groups have the same ability to make use of your information or service <u>Experience</u>: Think about what different people might think and feel during your programme, or as a result of your policy. <u>Outcomes</u>: Consider how people from different groups may be at a disadvantage in the results achieved by your project or policy. <u>Participation</u>: Think about the ways in which people are able or encouraged to take part, or the ways in which they are given the opportunity to make their own choices. - Don't make assumptions - Make yourself aware of the data and research that shows how protected characteristics impact on health and healthcare, and in particular, your own service. - Have you considered local and national statistics and evidence available on the demographic breakdown of those who use your service, and which protected characteristic groups are more likely to be affected by any changes? - Consider how to collect demographic information on each of the groups for profiling of access to/outcomes of services and initiatives. - People within each protected characteristic group are not all the same – people may be disadvantaged in more than one way. There are sometimes issues within groups that may make some people more vulnerable. - Consider intersectionality: the impacts on people with several protected characteristics that could result in them being particularly impacted - Have you engaged with the people affected by any changes to services? - Thinking about the information, language and imagery you are using.. - Is it translatable? - Is it understandable in different formats? - What alternative arrangements could be put in place to make it accessible? - How do people know how to access those alternatives? - Alternative formats include, Easy Read, British Sign Language and languages other than English. - Consider access to services – is the way in which services are accessed changing? Has this been communicated in different formats to ensure understanding? This can be about physical access as well as how we communicate with people about our services, this can be about letters, IT used to access appointments and even the wearing of masks - Are there particular groups who do not use or under use your service, or who are less satisfied with it? - Don't just think about your piece of work in isolation - will this change make a difference at another point in the pathway? Impacts may be positive or negative - How does this piece of work impact on people's ability to share any needs they have and for the organisation to then make any timely adjustments for that person - Remember that everyone on the group has protected characteristics and experiences that they can bring to the assessment.	

Age	Points to consider
	• This refers to children and adults of a particular age or age range. • What does local and national data tell you about different age groups? Is demographic information available on who is engaging with your service? • Are there any discriminatory practices in terms of any age groups that may or may not be justified? E.g. is the service designed with a specific age group in mind? • Younger people may have less access to transport, older people may be more likely to have underlying medical health conditions, age often connects with other characteristics but beware of making assumptions about the capacity of older or younger people • Is information given in an appropriate format in relation to the age of your service users? • For Scotland to support our children and young people to grow up feeling loved, safe and respected so that they release their full potential, the Promise outlines the need for a redesign of the 'care system' including a fundamental shift in how decisions are made, and money is spend in supporting Scotland's children and families. Have you considered how the activity may impact on care-experienced young people? • If your activity impacts on children and/or young people, you are also required to complete a Children's Rights Impact Assessment

Disability	Points to consider
	• A person has a disability if they have a physical or mental impairment (including learning disabilities) which has a substantial and long-term adverse effect on that person's ability to carry out normal day-to-day activities • Have you considered reasonable steps that can be taken to accommodate the needs of disabled people such as: • Getting in and out of spaces, availability of information verbal and written, access to toilets, induction loop systems, provision of an interpreter. • Employment opportunities for people with disabilities – does your piece of work positively support this? • Are you sure that the output from the activity is “accessible to all”? Many people have disabilities that are not visible or that they don't feel comfortable to disclose • Have you looked at what constitutes as a disability under the Equality Act 2010? This includes physical conditions, mental health, and sensory impairment. • Do you routinely record the communication needs of patients with a physical or mental health condition, learning disability or sensory impairment for referring to when sending out appointments etc? • Do you currently monitor whether or not service users have a mental health condition, physical or learning disability, or sensory impairment so that you know how well your service is being used by people with a disability? (this also applies to staff if assessing a piece of work that affects them) • Have you considered the timing of your service/appointments/meeting to meet the different needs of people who may rely on particular modes of transport? • Have you considered the accessibility of any technology being used?

Sex/Gender	Points to consider
	- This covers biological sex - whether you are a man, a woman or non-binary. Non-binary is used for people who don't feel male or female; they may feel like both, or something in between, or they may not relate to gender at all. Some prefer to use the pronoun "they" rather than he or she. - Does the data you are basing this piece of work on clearly show whether or not there any differences between the needs of women and men? - Do you gather data about how women and men use the service/s? If there is a difference in how a service is accessed how do you act on that?
Gender Reassignment	Points to consider
	- This covers both: Gender Reassignment, which is the process of transitioning from one gender to another. Individuals in this category are often termed transsexual. Gender reassignment does not need to involve any medical supervision or surgical procedures; it could simply involve a permanent change of the social gender role in which the person lives their life, (for example through a permanent change of name and the way they dress). Other transgender identities - such as polygender, androgyne, intersex, and cross-dressing people. The terms transgender and trans are both widely used by equality organisations to refer to a diverse range of people who find their gender identity does not fully correspond with the sex they were "assigned" at birth. Although the term transgender does refer in part to transsexual people (see above), not all transgender people will undergo the process of gender reassignment, but may face similar barriers to access. - Have you used non gender-specific language that is inclusive of Trans people, including non binary people? - Where relevant, are there opportunities for people to indicate the pronouns they use rather than relying on assumptions? - Do you consider the confidentiality of Trans people? - Do you consider needs of Trans people accessing clinics, admission process etc? - Are any of your services only available to a single sex? How have the needs of Trans people been considered within these?
Marriage and Civil Partnership	Points to consider
	- The rights and responsibilities that come with marriage and civil partnership are almost identical. Under the Equality Act 2010 it is unlawful discrimination for people who are married or in a civil partnership to be treated less favourably than people who are not married or in a civil partnership. - Equality legislation also protects people in relation to sexual orientation, which means that you cannot be treated less fairly as a same-sex couple than a mixed-sex couple would be treated. - Have you considered that those in civil partnerships should be given the same rights and benefits as those who are married?
Pregnancy and Maternity	Points to consider
	- Pregnancy is the condition of being pregnant/expecting a baby. Maternity refers to the period after the birth. Protection against maternity discrimination covers 26 weeks after giving birth, and this includes treating a woman unfavourably because she is breastfeeding. - Are you aware that the new law makes it clear that it's against the law for people to get less favourable treatment because they are breastfeeding when receiving services? (this also applies to staff if assessing a piece of work that affects them) - Are you aware that it is illegal to refuse to employ someone because they are pregnant, on maternity leave, because of an illness related to pregnancy and or to dismiss someone when they reveal this?
Race and Ethnicity	Points to consider

- This refers to a group of people defined by their ethnic or national origins, race, colour, and nationality (including citizenship). All minority race and ethnic groups are covered including, for example, Gypsy/Traveller communities, Jewish communities, English people as well as visible minority groups like African, Caribbean and Asian.
- We are required to provide an interpreter for people whose first language is not English, how will this happen in relation to this piece of work?
- Have you ensured that core information is available in languages other than English?
- Do you routinely record the language that a person speaks so that you can send letters in the correct language or to phone them instead if they can't read?
- Have you thought about your assessment materials and methods and made sure that they are relevant to people from different cultures?
- Have you considered general data available on health needs of equality groups i.e. Type 2 diabetes is up to 6 times more common in South Asian people and up to three times more common in African and African-Caribbean people?

Religion and Faith

Points to consider

- Religion is the worship or faith in a God or Gods, but belief is wider and includes religious, spiritual and philosophical beliefs. It also includes lack of belief or no belief in religion (e.g. Atheism). Generally, a belief should affect your life choices or the way you live for it to be included in the definition.
- Do you currently record patients' religion in order to assist you in identifying users and non-users of your service from various religious backgrounds and any specific needs which they may have?
- Are there inclusive prayer/reflective spaces available for those from all religions and beliefs for staff and service users?
- How do you consider necessary dietary requirements?
- Have you considered the gender of staff when caring for females?
- Does the service allow for requests from staff to have time off for religious festivals and functions?

Sexual Orientation

Points to consider

- Whether a person's sexual attraction is towards their own sex, the opposite sex or to both sexes. This includes people who are heterosexual, lesbian, gay, bisexual, pansexual or asexual.
- Does your service recognise and respect individual's sexual orientation?
- Does your service recognise same sex relationships in respect to next of kin etc?
- Recording forms / use terminology such as partner / civil partner?
- Does your service make it easy for someone to discuss their sexual orientation if it is relevant?

Carers

Points to consider

- Will the policy or service change impact on staff who are carers?
- Does the policy or service change include provision for staff who are carers to access support?
- How will you inform and involve patients' carers?
- Have you involved patients' carers in the development of the service or policy?

Human Rights

Points to consider

- This is about protecting and promoting individuals' rights and freedoms in relation the Human Rights Act 1998

- **Does the activity affect people's human rights?**

Right to Life – protects your life, by law. The state is required to investigate suspicious deaths and deaths in custody

Freedom from torture and inhuman or degrading treatment - you should never be tortured or treated in an inhuman or degrading way, no matter what the situation

Freedom from slavery and forced labour - you should not be treated like a slave or subjected to forced labour

Right to liberty and security - you have the right to be free and the state can only imprison you with very good reason – for example, if you are convicted of a crime

Right to a fair trial and no punishment without law - you are innocent until proven guilty. If accused of a crime, you have the right to hear the evidence against you, in a court of law

Respect for your private and family life, home and correspondence – you have the right to live your life privately and enjoy family relationships without interference from government

Freedom of thought, belief and religion - you can believe what you like and practise your religion or beliefs

Freedom of expression – your right to hold your own opinions and to express them freely

Freedom of assembly and association – your right to protest by holding meetings and demonstrations with other people

Right to marry and start a family - you have the right to marry and raise a family

Protection from discrimination in respect of these rights and freedoms - everyone's rights are equal. You should not be treated unfairly – because, for example, of your gender, race, sexuality, religion or age

Right to peaceful enjoyment of your property – property can include things such as land, houses, objects you own, shares, licenses, leases, patents, money, pensions and certain types of welfare benefits

Right to Education – protects your right to an effective education. Parents also have a right to ensure that their religious and philosophical beliefs are respected during their children's education

Right to participate in free elections – support your right to free expression by holding free elections at reasonable intervals

Poverty 'at risk' groups

Points to consider

- Will the activity reduce financial pressures for individuals and families?
- Will this activity give people and families experiencing poverty the opportunity to ensure that their voice is heard?
- Will the activity support those experiencing poverty to move from dependence to independence?
- Will the activity provide services that meet the needs of people experiencing poverty?

People with low literacy/numeracy, poorer skills and/or attainment

Points to consider

- Will information and services related to the activity be easy to access?

Those Involved in the criminal justice system

Points to consider

- Does the activity require a distinct approach to ensure it's inclusive of individuals that are involved in the criminal justice system and their families?

Homelessness

Points to consider

- Homelessness can be caused by a range of factors and challenges in people's lives such as poverty, relationship breakdown, job loss, death or the result of experiencing gender based violence. Systemic issues like poverty, rising housing costs, welfare cuts and availability of health and social care support have a crucial role to play in whether or not a household reaches crisis point and it's vital that public services pick up issues early and act before crisis point is reached.
- Will the activity have an impact by preventing factors that may lead to household crisis resulting in homelessness?
- Does the activity consider people that do not reside in a settled home?
- Will the activity have an impact on housing options?

People who are displaced (inc. refugees and asylum seekers)	Points to consider
• Does the activity consider the specific needs and vulnerabilities of displaced people? This may include but is not limited to lack of secure housing or accommodation, limited livelihood or education opportunities, lack of official documents needed to access basic services or assistance, exposure to further hazards, family separation, discrimination, heightened risk of gender based violence and trafficking, psychological impacts and weak or absent support networks.	

Economic and Social Sustainability	Points to consider
• This is about e.g. pay, employment opportunities, assisting businesses to develop and grow, welfare to work schemes and disadvantaged groups, local self-help schemes and valuing and supporting voluntary work. It also covers issues around aspects of poverty including individual and community resilience. • How will your activity impact on e.g. social status, employment (paid or unpaid), opportunities to expand on learning experiences, opportunities for volunteering, encouragement of investment in skills and training, assistance for people on low incomes or support for disadvantaged groups in any way, help people access advice on financial inclusion, availability or delivery of services for people living rurally and increase in access to facilities for arts, cultural and leisure pursuits? • How will the activity work in rural areas where the existing infrastructure is typically less developed or where infrastructure does not exist (e.g. mains gas, fast broadband connections)?	

Environment	Points to consider
• This is about enhancing the built environment, preserving local heritage, reducing the need to travel by improving or adding to local facilities, promotion of public transport, living conditions such as housing and green spaces, biodiversity, the amount of emissions, fuel consumption, fuel use and renewable energy technologies. • It is important to consider environmental impacts of changes we make. Please see this tool Environmental Sustainability and Climate Impact Assessment, which can support a more detailed environmental assessment or give points for consideration • If the effect or possible effect is minimal, no action is required under the requirements of Strategic Environmental Assessment (SEA) but there is a duty under the Environmental Assessment Scotland Act 2005 to notify the SEA authorities. There are templates available to help this process. This should be noted on the summary sheet. If there is any likely positive or negative environmental effect, a full SEA may be required. • In order to comply with the Climate Change (Scotland) Act and Carbon Reduction Commitment Energy Efficiency Scheme organisations must maintain accurate records and data with regard to its Emissions. If your policy may lead to a change in levels of emissions, has account been taken of the need to accurately record this data? • Will your policy affect infrastructure – housing, land and buildings? • Does the activity promote active travel and physical activity?	

Armed Forces Personnel and Veterans	Points to consider
-------------------------------------	--------------------

- This is about ensuring that due regard is paid to the principals of the Armed Forces Covenant Duty. Due regard must be paid to:
- The unique obligations of, and sacrifices made by, the armed forces
- Removing disadvantage arising for armed forces personnel, or veterans
- The principle that it may be justified to make 'special provisions' for armed forces personnel or veterans in the planning, delivery and provision of services
- How will the activity impact on members of the armed forces. veterans and their families?
- Is there an opportunity to reduce disadvantage for armed forces personnel, veterans and their families? For example, in relation to accessing healthcare, delays receiving treatment due to relocation and understanding the health and care needs of armed forces personnel.
